Examiner's Detailed Office Action

1. This Office Action is responsive to communication, filed 07/30/2008.

Information Disclosure Statement

2. Applicant is respectfully remind of the Duty to disclose 37 C.F.R. 1.56 all pertinent information and material pertaining to the patentability of applicant's claimed invention, by continuing to submitting in a timely manner PTO-1449, Information Disclosure Statement (IDS) with the filing of applicant's of application or thereafter.

Drawings

3. The formal drawings submitted have been reviewed by the Office of Initial Patent Examination (OIPE) and/or the USPTO Office of Draftperson's Patent Drawings Review.

Specification

4. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Appropriate correction is required.

Notice of Non-Responsive

5. Newly submitted claims 16-45 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the scope of the invention has changed, applicant has failed to respond the original action on the merits (moreover, a new search on claims 16-45 is required), examination of the merits of the original invention has been completed. Accordingly, applicant will need to respond in a timely manner, or pay the fee for a new examination.
6. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-15 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
7. The amendment filed on (07/30/2008) canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the scope of the invention has changed.
8. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Claim Interpretation

9 The claims and only the claims form the metes and bounds of the invention. “Office personnel are to give the claims their broadest reasonable interpretation in light of the supporting disclosure. *In re Morris*, 127 F.3d 1048, 1054-55, 44USPQ2d 1023, 1027-28 (Fed. Cir. 1997). Moreover, limitations appearing in the specification but not recited in the claim are not read into the claim. *In re Prater*, 415 F.2d, 1393, 1404-05, 162 USPQ 541,550-551 (CCPA 1969)” (MPEP p 2100-8, c 2,145-48; p 2100-9, c 1,1 1-4).

10. The Examiner has full latitude to interpret each claim in the broadest reasonable sense. The Examiner will reference prior art using terminology familiar to one of ordinary skill in the art. Such an approach is broad in concept and can be either explicit or implicit in meaning.

11. Examiner’s Notes are/if provided with the cited references to prior art to assist the applicant to better understand the nature of the prior art, application of such prior art and, as appropriate, to further indicate other prior art that maybe applied in other office actions. Such comments are entirely consistent with the intent and spirit of compact prosecution. However, and unless otherwise stated, the citations are self-explanatory to one skilled in the art and do not need any further explanation. Moreover, the Examiner’s Notes are not prior art but a link to prior art that one of ordinary skill in the art would find inherently or obviously appropriate.

12. Unless otherwise annotated, as aforementioned, Examiner’s statements are to be interpreted in reference to that of one of ordinary skill in the art. Statements made in reference to the condition of the disclosure constitute, on the face of it, the basis and such would be obvious to one of ordinary skill in the art, establishing thereby an inherent or obviousness prima facie case or statement(s).
